

Your Business Solution Service Provider

ABOUT US

Hindustansoft was formed in 2014 with a vision to offer value-for-money, web based services. And today, we had expanded from being just a Domain Name Registration and Web-Hosting service provider to an end-to-end Web Services , Business Solutions and IT Consulting company.

We pioneer in providing Cloud based, cost effective and user friendly business solutions !

Hindustansoft Corporation has head office in INDIA. We are fast growing online IT Business Solutions Service Provider Company with leading brands availing our service across world.

How does the customer benefit?

Hindustansoft – Partner Data Center state-of-the-art facilities have been designed using best-practices ideology, and support all major carrier's

Clearly defined escalation matrix with Instant alerts & notifications ISO 27001 controls 99.99% uptime SLA

Support team, with clear understanding of market, and customer mindset

Customers Application & Data remains within the country boundaries (For US based clients in US Datacenters)

Advanced Monitoring & Management tools are used to ensure our customers websites and applications are always up and running

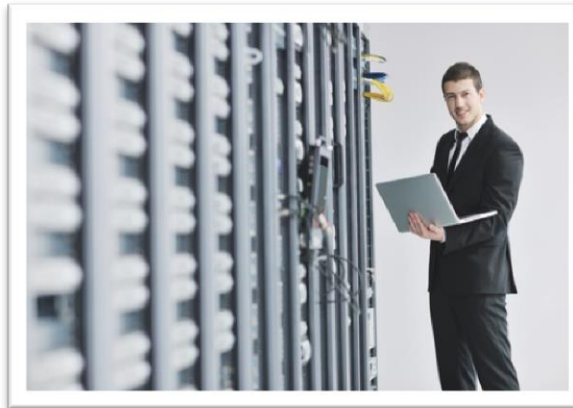

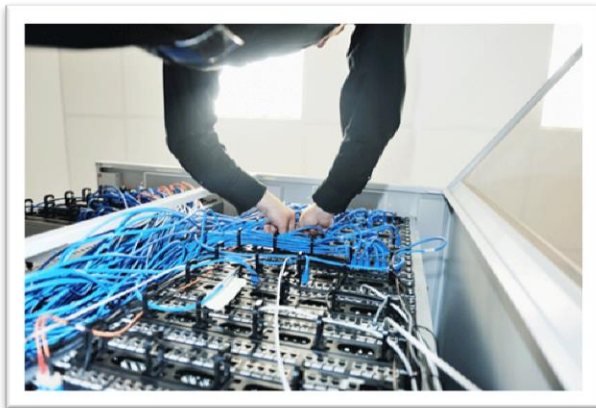

24x7 Network Operations Centre with Trained and skilled personnel; ITIL compliant processes

Our Partner Datacenter

Our partner datacenters are among the best-connected hosting facilities in the world. There has been heavy investment in both network equipment and backbone connections to ensure that our clients get the fastest access possible to their content and applications. With multiple network connections to multiple different Internet backbones this means that our network is not dependent upon any single provider, ensuring the maximum possible network uptime.
